Seminar Topics:

- 1. Jobs of the future – What jobs will exist in 5, 10, 20 years that don't exist now?
- 2. What effects are robotic workers having on the job market? Will robots be able to do jobs like journalism & legal work (yes they will, computerised copy writing and contract checking are already a reality) or will automation only affect 'physical' jobs?
- 3. Transferable skills – what are they and why do we need them? – Useful question to elicit knowledge of transferable skills – you may find this definition useful in order to help your students decide which skills are transferable “Transferable skills are general skills you can use in many jobs. You gain these skills from previous jobs, projects, voluntary work, sport, your home life, hobbies, and interests. They enable you to be adaptable and flexible in case you need to change your job”
- 4. What skills & qualities do employers want when they employ a person straight out of school/college/university?
- 5. What skills & qualities do employers want when they employ a person straight out of school/college/university?
- 6. Can work be fun? What makes work fun? Can it always be fun? What is fun?
- 7. What's the difference between a job and a career?
- 8. Is a job just to pay the bills and a career something you're interested in?

Eligibility:

The program is open to the all students of IV Year B-Tech and engaged in Engineering courses at under graduate and post graduate level are welcome.
