BROUCHURE

PROGRAM AIMS AT

Providing hands-on experience to fresh IT graduates & giving a leg up to them so that they can cater to the growing demands of the computer world.

In this programme they will specialize in certain modules. During this program they will undergo technology orientation and work on live projects along with personality development and soft skills.

Highlights

- Focus on in-depth technical
- Advanced Technology
- Application of knowledge to build technology solutions
- Exposure to software development process
- Guidance from industry experts-Technical/Mgmt/Others
- Global Certification-IBM DB2/AD/MCTA/MCP/SCJP
- Personality Development & soft skills

MODULES OF THE PROGRAMME

1. Soft Skill Development
2. Effective Communication Skills
3. Interpersonal Skills
4. Personality Development
5. Technical Skills

MOTIVATORS

Personality development classes by eminent people like

1. Sri. Yendamuri Venkateshwar Rao
2. Dr.B.V. Parthasaratham
3. Sri Ganapathi Narayana Rao

PERSONALITY DEVELOPMENT

1. Transactional analysis
2. Body language
3. Transformation
4. Self-esteem
5. Communication skills
6. Universal values
7. Leadership qualities
8. Time management
9. Leadership development
10. Effective Public speaking
11. Awareness of global happenings
12. Career guidance & Preparing for an interview
13. Yoga/Meditation

EVALUATION AND ASSESSMENT

The candidates would be put through a rigorous in house training of 90 Hours in and after each module their performance would be evaluated by a team of experts. After the compulsory participation of the course they would be provided a certificate at the completion of schooling which would carry the credibility of trust and it will only be awarded to eligible students.

PREREQUISITES

Pre-final/Final Year/B.Tech CSE, ECE, EEE, IT & M.Tech /MCA/MBA students

"The beautiful thing about learning is no one can take it away from you"

Jayamukhi Finishing School (JFS)

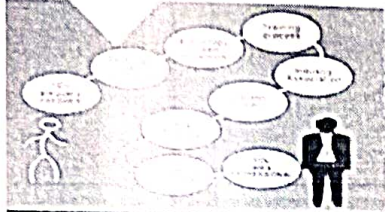

is an amalgamation of professionals with decades of experience in various fields of engineering, corporate training, industry and personality development. This center of excellence in finishing studies offers an arena to the aspirants to vie with the contestants in their fields and come out as masters whom the world is demanding for. Students are provided a platform to share, learn, contribute and become true professionals they want to be.

The Finishing School Edge

- It is a skill based programme honing both soft skills and others skills
- Focuses on multi platform proficiency
- Grounding in theory and endless platforms for application
- Bridges the gap between education and the demands of the IT Job Market
- Backed by total IT Solutions
- Offers Excellent Industry Interface
- Increases your Job Quotient

At JFS, we make you exactly that: 100% industry ready. You get the upper hand with a good knowledge of software fundamentals, technical know how and interactive workshops with industry experts, project exposure, workshops on software development life cycle & professional practice, social poise & etiquette, behavior & savvy conversation – making you all ready for the major IT companies. Also focusing on the abilities of the students to adapt to the industry environment, our faculty has a strong industry background coming with their extensive experience in the industry.

JFS is always

ready to offer programmes that are tailor made to the needs of the aspirants who are being made to the level of excellence in the field of engineering and IT industry. The multi platform proficiency and contemporary learning methodology in the engineering field by offering the aspirants to vie with the contestants in their fields and come out as masters whom the world is demanding for. Students are provided a platform to share, learn, contribute and become true professionals they want to be.

Accreditation

Based on an advanced academic curriculum and computer track, recognized by the National Board of Accreditation of the ACTE for the first time, all the four branches of engineering (CSE, ECE, EEE, and IT) are offered. The aspirants are provided a platform to share, learn, contribute and become true professionals they want to be. The aspirants are provided a platform to share, learn, contribute and become true professionals they want to be.

NEED

Every year, India produces 400,000 engineering graduates while only 23% of them are suitable for employment – NASSCOM. The IT industry predicts a shortfall of 35,00,000 skilled workers by 2020. The biggest challenge India's educational system faces today is employability. One of the major reasons why engineers, even from reputed institutes, are not easily employed is because they lack hands-on skill.

University trained engineers lack the "feel" of how things are made and how they fit together. They lack experience hindering their ability to effective utilisation. A practical oriented training methodology coupled with practice will equip engineers with the right skill sets.

FINISHING SCHOOL – BRIDGING THE GAP

Once out of college, knowledge in hand is not the perfect picture that excites your ideal employer. A college degree doesn't really leave you industry ready. To be up where you want to see your career, you need to be able to take that knowledge and apply it so that you are on the list of your ideal employer. This gives you the edge in the industry, and makes you truly an industry ready professional.

OBJECTIVE OF THE FINISHING SCHOOL

The objective of the finishing school is to bring an attitude change, develop, nurture and transform the upcoming generation of students. It also aims at keeping them abreast with the emerging trends in technology. JFS is offering:

1. To enhance the employability of engineering students.
2. To enhance the standard of fresh engineering graduates so that they become acceptable to the industry.
3. To cater to the needs of the industry.
4. To create a platform where the students can work towards accessing the skills required to get into industry.
5. To bridge the gap between industry and educational institutions.
6. To provide both technical and soft skills to people to facilitate their employability.
7. To meet the needs of unemployed and non-employable engineering graduates and to improve their communication as well as IT skills.
8. To reinforce the students skills and acquire industry-specific knowledge from trained faculty and experts from industries.
9. To offer suitable candidates to different industries.
10. To help young graduates to find jobs through appropriate training.
